AVIGHNA ENTERPRISES

The Industrial Experts...

PAPER CONES

Dimensional Accuracy

To achieve targeted efficiency, cone design must adhere to automated winding machine manufacturers' dimensional tolerances. The cones supplied by us have tolerance of $\pm 1\text{mm}$ in length and $\pm 0.25\text{mm}$ in inside diameter at both the top and the bottom of the carrier.

Perfectly Balanced & Round

By eliminating heavy areas around the circumference of the carriers, especially at the seam overlap, our textile cone spins evenly at top operating speed. Even a slightly oval shape will cause textile cones to bounce or vibrate during yarn winding. Our technology ensures round carriers every time.

Best Quality & Performance

Our supplied cones enhance the productivity and output quality of fully automatic high speed winders as well as semi-automatic.

CORRUGATED PALLETS AND CARDBOARD BOXES

A PERFECT FIT

Completely customizable, our supplied corrugated paper yarn pallets are die-cut to precisely fit your yarn packages, maximizing shipping and storage space.

IDEAL FOR EXPORT

Our corrugated paper yarn pallets are $\frac{1}{3}$ the weight of wooden pallets, translating to 1440 lbs of savings on a 45ft shipping container.

Custom Design

We help you to design the best cardboard box to fit your needs. We think not only outside the box, but inside too, to protect what is most important, your product

PROTECTION AND TRANSPORTATION

We offer a wide variety of package supplies like edge board, stretch film, labeling solutions, slip sheets and so much more.

STRECH FILM AND STRAPPING

PROTECT YOUR PRODUCT

We offer protective packaging solutions to ensure your products arrive intact and unharmed, keeping your products secured during transit.

WEATHER RESISTANT

Our stretch film wrap offers a cost-effective solution for protecting your shipment from dust, moisture and UV rays.

SHIFT CONTROL

We offer void filling options, stretch wrap film and strapping to protect your product from damage and shifting during transport

DAMAGE CONTROL

Our plastic and corrugated honeycomb products can be layered to prevent damage and dings from mishandling.

TEXTILE WAX

CONSISTENT AND OPTIMUM PERFORMANCE

Our supplied waxes provide proper oil content, melting points and wax application to ensure consistent and optimum performance.

SPECIALIZED FORMULA

Our supplied waxes come in the ideal consistency required for your spinning and material needs. From very soft to hard wax, we have the formula needed to provide a quality finished product.

ORGANIC WAX

Our organic, pure paraffin wax option has no additives and is ideal for food grade and sanitary yarns.
